

JUGENDHAUS KUNISAKI

JAPAN
OITA, KUNISAKI

In the south of Japan, in Oita Prefecture, a region surrounded by beautiful seas and mountains, a new youth program called "Jugendhaus Kunisaki" has been established. Here, several teenagers and young adults live in a dormitory within a renovated traditional Japanese house. Through communal living, we seek, experience, and understand various personal themes.

At "Jugendhaus Kunisaki" participants engage in organic, biodynamic farming, practical learning about Japanese traditional culture, sociology, nutrition science, and spiritual studies through reading groups.

If you are interested in living, visiting and learning in Japan alongside young people who are eager to seek their own personal themes and society, please feel free to contact us.
